INTRODUCTION TO RISE

Still Interested in Joining? It's NOT too Late!

Watch this [pre-recorded training video](#) to get all caught up on how to join the challenge this year.

EDUCATOR RESOURCES

Everything Now Available Online!

Have you stopped by the Educator Resource Page lately? If not, there is a lot of great resources and new information to help you implement RISE Challenge with your students.

[EDUCATOR RESOURCES](#)

I'M NOT A NATURAL HAZARD EXPERT

How can I lead a group?

You do not have to already know anything about natural hazards or natural disasters to lead a team in RISE Challenge IL. All you have to do is get the conversation started, help guide your student's investigation and help them decipher the information to make a plan.

Let us help you get started with the ["Where to Begin Presentation"](#).

VOLUNTEER FOR RISE CHALLENGE IL

Not an educator, but want to get involved? Here's how!

RISE Challenge IL is looking for volunteers to assist in several different ways. The first step is to let us know you are interested! Complete the [INTEREST FORM](#).

Volunteer Options -

Project Proposal Reviewer - Give just a few hours the first two weeks in March to review student project proposals. Rubric and instructions will be provided.

Presentation Judge - Attend the RISE Summit on April 28th to listen to student presentations and help determine the winners of the challenge. Judging rubric and instructions will be provided.

Summit Attendee - Attend the RISE Summit on April 28th to provide a captive audience for the student presentations.

[See all the volunteer options and details!](#)

Natural disasters in Illinois are a question of when, not if. Prepare your students with the knowledge and skills they need to make their communities safer, stronger, and more resilient. Join the RISE Challenge!
